From The President's Desk — Mike Magnuson, N7ETA

73s to all!

It is almost time for Field Day!! Are you ready? Mike KX7N is this years chairman and we need operators, setup and tear down help.

Can you operate CW? Would you Technicians like to operate on HF?

Well here is your chance to do it all! Learn about antennas, towers, operating, interference, and have a lot of fun doing it. Attend the meeting this month to find out more!

Sea Pac again this year was a great success and we made some money for the club repeater and scholarship fund. Those who attended had a great time and meeting people they have talked to on the radio, learned about new equipment, and maybe found a good buy on used equipment or parts. The seminars were again this year very informative and educational. And our SeaPac flea market table did really well. If you did not make it this year, I would make plans for next year as I know you will find it informative and possible they may have that new or used rig you have been wanting.

If you hear of any public activities that could use our skills in communications that will bring us good public exposure, contact one of the club officers with the information.

Let' all work together to inform the public that our hobby is healthy and growing! Let's let them know that in an emergency they can count on us for communication!

73's
Mike – N7ETA
