## General Club Meeting on November 17th, 7:30PM

At Mt. Hood Community College  
Room 1001

Hope to see you all there.

## From The President's Desk — Mike Magnuson,

73s to all!

Look at those sun spot numbers It looks like cycle 24 is finally off and running Over 200 spots and the flux is above 175 and climbing This is great news for DX on the upper bands and VHF.

Please see page 3 for more information about our Christmas gathering

Nominations are open and the nominating committee is contacting all of the members for the open positions on the board. Please support them and the club.

As in the last couple of years, I am asking for donations of food (non-perishable) to be collected at the next meetings and will make the donation to Snow Cap after the December General meeting. Remember that the last few years have been tough on a lot of people in our area and the food banks have been very busy.

If you hear of any public activities that could use our skills in communications that will bring us good public exposure, contact one of the club officers with the information. Invite someone to a meeting or activity! Let's all work together to inform the public that our hobby is healthy and growing! Let's let them know that in an emergency they can count on us for communication!

73's, Mike - N7ETA

### 2012 Officers?

It is time for the club to start planning for next year and we need some members to step up and volunteer for the board. We are looking for a President, Vice President, Secretary and Board Members. The nominating committee have been making telephone calls to members that attend the meetings. We have had a few volunteers but need more people to consider running for office. It's easy, ask me, I have done it for the last seven years.
