# HOODVIEW NEWS

**General Club Meeting - April 20th at 7:30 PM.**  
We will host a hybrid meeting: in-person and virtually on WebEx. In person at Mount Hood Community College, Room 1001 (south end of the main campus) and you will receive a link emailed to you next week.

**From the President's Desk – Rob Remler K7MR**

Every now and then I find or hear something that I think might be interested in. I was on 40M late one evening and as I passed 7.185 I stopped to listen. It was a net called OMISS (?? International Sideband Society) I never did find out what the OM stood for. I looked up their web site (<https://www.omiss.net/Facelift/index.php>) and found that there is a multi-band network and a significant membership as well as some late-night options. While I'm not promoting any specific net or group, I am continually surprised at what is out there and that many of these groups have been operating for quite a long time. I did not check in as I wanted to listen to find out how they operated but they sounded inviting. If you haven't found something on the air to participate in either spin the dial or ask around and find out what others are involved with. You can also ask to join someone in their radio shack. There are a number of us who would be happy to invite others over to talk radio.

I'm not sure what happened or why but one of the ways we have connected with new members or visitors in the past is to have someone welcoming people when they come in the door (check in list?). I have been aware that new members join and I don't know who they are or if they are in attendance. I also don't want to embarrass them by calling them out during a meeting but I would like to bring back this practice so that we can connect up with our new members. It's often difficult to break into an established group and even with a group as friendly as ours (there's got to be a good joke here) I don't want to miss those who are interested. If this opportunity to help is in your wheelhouse let me know.

**Remember:** Meet and greet Begins at 7:00 PM and our general meeting starts at 7:30. It's been great to see people in person but if you are unable, join us online. Looking forward to seeing everyone on Thursday April 20th.

**Also:** If you haven't registered for our Spring Banquet, today (April 20th) is the deadline. Check the details in the newsletter and online.

**Classy Radio Red Hatters-KE7LJC:**

Open to women who like to have fun. You don't have to be a HAM to participate, however our group currently consists of Hams or wives and friends of Hams. We just like to Ham it up. No meetings are scheduled, just opportunities to get together monthly and have fun. We are the women in the red & pink hats. Little girls grow up, but they are never too old to play dress-up and have tea parties. Red Hat Society has ONE inflexible guideline that we must insist upon. You must be a woman of 50 or over (or you may be a Pink Hatter under 50) and you must attend functions in full colors – red hat and purple outfit or for women under 50 (pink hat and lavender outfit). Call Queen Cory Schoch KA7IUG 503-781-9095 or email at [ka7iug@frontier.com](mailto:ka7iug@frontier.com) for more information on activities or to join. We invite you to come and see what we are all about.

### **ARRL Announces World Amateur Radio Day is April 18**

This month, World Amateur Radio Day (WARD) will be celebrated, literally, around the world!

WARD is held on April 18 every year and is celebrated by radio amateurs and their national associations which are organized as member-societies of the International Amateur Radio Union (IARU). It was on this day in 1925 that the IARU was formed in Paris. American Radio Relay League (ARRL) Co-Founder Hiram Percy Maxim was its first president.

The IARU announced previously that Human Security for All (HS4A) will be this year's World Amateur Radio Day theme. The day is being celebrated with a 2-week operating event occurring April 11 - 25. Special event stations will be operating from around the world, making two-way radio contacts to call attention to the HS4A campaign. The United Nations Trust Fund for Human Security describes 'human security' as "a more powerful, lasting approach to the most difficult deficits in peace and development," such as poverty, war, and natural disasters.
